### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jonathan R. Bowser on December 1, 2006.

- In claim 20, line 2, insert "recording" between "readable" and "medium".

2. In addition, the following amendment is made herewith. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

- In claim 1, line 8, "permitted number of" should replace "number of permitted" (first occurrence).
- In claim 1, line 8, "permitted number of" should replace "number of permitted" (second occurrence).
- In claim 17, line 7, "permitted number of" should replace "number of permitted".
- In claim 17, line 8, "permitted number of" should replace "number of permitted".

Art Unit: 2189

- In claim 19, line 15, “a permitted number” should replace “a number”.
- In claim 19, line 16, “permitted number of” should replace “number of permitted”.
- In claim 20, line 17, “a permitted number” should replace “a number”.
- In claim 20, line 18, “permitted number of” should replace “number of permitted”.

### EXAMINER’S COMMENT

3. With regard to the amendment above that was approved by applicant’s representative, this amendment is in accordance with the *tangible* embodiments of a recording medium, as described on page 133 of the specification.

With regard to the second set of amendments above, while the examiner is generally not permitted to make changes to the language of the claims prior to approval, the exception is when there is an obvious typographical error. Because applicant’s remarks on page 13 of the comments submitted with the amendment of September 26, 2006 indicated applicant’s desire that independent claims 1, 17 and 19-20 have each be amended to include the limitations recited in lines 6-8 of original claim 3, the transposition of “number” and “permitted” and/or the omission of “permitted” in the newly added language of these claims is deemed to be a typographical error. The above corrections to these errors are necessary to distinguish the claims from the previously cited Alve et al., US 2003/0076955 A1 (note, for example, paragraphs [0044], [0045] and [0047]).
